

# 6 Municipality Service Areas: Our Approach to Design

**the jdi group**  
architects & engineers

# 3 Our Approach to ►►► PARKS AND RECREATION

At The JDI Group, we are passionate about designing parks and recreational spaces that enhance community life, promote well-being, and foster environmental stewardship. Our designs blend functionality, aesthetics, and sustainability to create inviting spaces for all to enjoy.

## Our Process

- 1. Community-Centric Planning:** We start by understanding the needs and desires of the community, ensuring our designs reflect their vision and values.
- 2. Innovative Design:** Our team of skilled architects and engineers employs creative and sustainable design principles to develop multifunctional and visually appealing recreational spaces.
- 3. Eco-Friendly Solutions:** We incorporate green building practices and sustainable materials to minimize environmental impact and promote biodiversity.
- 4. Collaborative Approach:** We work closely with local stakeholders, incorporating their feedback and ensuring our designs meet the community's needs and preferences.
- 5. Seamless Implementation:** Our experienced team brings the designs to life with precision and care, ensuring minimal disruption and timely completion.

## Success Stories

- City of Maumee - Towpath Park Pavilion
- City of Maumee - Eppstein Park
- Miscellaneous Playgrounds
